For your convenience, we have attached a Ferrara Candy Company sales tax exemption certificate. Sales tax exemption certificates are only being provided to vendors that either supply direct materials and packaging qualifying for resale certificates or goods/materials that qualify for manufacturing exemptions. Considering each state has its own tax laws governing manufacturing exempt items and uses, vendors that supply multiple impacted locations may receive multiple exemption certificates, but not necessarily one for each location if the exemption rules differ by state. **Please process the attached sales tax exemption certificate no later than close of business Thursday, July 25, 2019 and let us know if you have any questions.**
